**PATIENT EDUCATION:** Discussed with patient importance of establishing and maintaining healthy diet. Reviewed current medications, dosage, targeted behaviors, common side effects, and importance of maintaining regimen. Also discussed patient's responsibility for knowing medications and related health information.

**HEALTH AND SAFETY ISSUES:** None except hyperactivity or loss of control causes him to run into or bump peers on playground at times. Then he will state his foot, leg, or arm hurts if he bumps into others. Ice is applied if any redness, etc.

**SPECIAL TREATMENT PROCEDURES SINCE LAST SUMMARY** (Date, duration, behavior.): 2/04/08 Horiz restraint at 304p for aggression, fighting a peer.

**STAT MEDICATIONS GIVEN FOR DANGEROUS BEHAVIORS DURING REPORTING PERIOD:**  
2/13 at 920p 50 mg Thorazine conc po due to agitation with peers. 2/14 at 945a admin Thorazine 50 mg IM (IM per his request) for agitation. 2/27 at 914a admin 50 mg Thorazine po for aggression. 2/28 at 920p 50 mg Thorazine po for aggression. 3/01 at 320p 50 mg Thorazine po for aggression to peers.

**OTHER COMMENTS:** He has required several emergency meds for behavioral inappropriateness, especially with his peers. He does not want them to play games with him when a staff member is playing. He is very possessive of staff's attention.
